

Kinlan M.G. Jan

✉ kinlan.jan@hotmail.ch  0000-0002-5579-0017  KMGJan

Education

PhD in Marine Biology **Stockholm, Sweden**
Stockholm University *September 2021 — January 2026*
Thesis title: *Resolving diversity and ecosystem functioning in a changing sea*

MSc in Marine Biology **Stockholm, Sweden**
Stockholm University *August 2019 — June 2021*
Master project title: *Copepod feeding preferences along the Baltic Sea environmental gradients*

BSc in Biology **Neuchâtel, Switzerland**
The University of Neuchâtel *September 2017 — June 2019*

Teaching

Stockholm University **Stockholm, Sweden**
Marine ecosystem dynamics, *MSc* course *2021 — 2025*
Marine ecology, *BSc* course *2022*

The University of Neuchâtel **Neuchâtel, Switzerland**
From molecules to cells, *BSc* course *2018 — 2019*

Experience

Sampling
Herring Larvae Survey in the Stockholm archipelago *2023 — 2024*
Sprat Acoustic Survey in the Baltic Sea *2022 — 2023*
Plankton monitoring survey in the Baltic Sea *September 2020*

DNA Metabarcoding
Laboratory: DNA extraction, PCR amplification, library preparation, gel electrophoresis
Bioinformatics: Sequence processing and taxonomic assignment

Statistical analysis and reproducible workflows
Data wrangling, visualization and reporting in R
Version control using Git

Food web and ecosystem modelling
Trophic network analysis
Integration of biomass, environmental, and metabarcoding datasets

Awards and grants

Elisabeth och Herman Rhodin Memorial Foundation *2024*
ICES travel funds for early career scientists *2024*
BalticWaters Scholarship program for early career researchers *2024*
Dryssen Award for best Master's Theses in Marine Sciences *2021*

Publications

h-index: 5 | i10-index: 4 | Total citations: 102

(Google Scholar, 28/04/2026)

First author publications

Jan KMG, Hentati-Sundberg J, Larson N, Winder M. 2025. *Limited resource use overlaps among small pelagic fish species in the central Baltic Sea*. ICES Journal of Marine Science 82:9, fsaf122. doi: 10.1093/icesjms/fsaf122

Jan KMG, Serandour B, Walve J, Winder M. 2024. *Plankton blooms over the annual cycle shape trophic interactions under climate change*. Limnology and Oceanography Letters 9:3, 209-218. doi: 10.1002/lol2.10385

Novotny A*, Jan KMG*, Dierking J, Winder M. 2022. *Niche partitioning between planktivorous fish in the pelagic Baltic Sea assessed by DNA metabarcoding, qPCR and microscopy*. Scientific Reports 12, 10952. doi: 10.1038/s41598-022-15116-7

* Shared first authors

Co-authored publications

Hanström N, Jan KMG, Serandour B, Xu T, Winder M. 2025. *Diet composition and environmental niche drive parasitic Syndiniales interactions with crustacean zooplankton*. ISME Communications, ycaf248. doi: 10.1093/ismeco/ycaf248

Serandour B, Blenckner T, Jan KMG, Leroy B, Ramiro-Sánchez B, Campbell E, Winder M. 2024. *Projections of spatial distributions of suitable environmental conditions for key Baltic Sea zooplankton species*. Limnology and Oceanography 69:12, 2801-2814. doi: 10.1002/lno.12705

Novotny A, Serandour B, Kortsch S, Gauzens B, Jan KMG, Winder M. 2023. *DNA metabarcoding highlights cyanobacteria as the main source of primary production in a pelagic food web model*. Science advances 9:17, eadg1096. doi: 10.1126/sciadv.adg1096

Serandour B, Jan KMG, Novotny A, Winder M. 2023. *Opportunistic vs selective feeding strategies of zooplankton under changing environmental conditions*. Journal of Plankton Research 45:2, 389-403. doi: 10.1093/plankt/fbad007

Conferences

Presented 9 contributions (6 oral presentations, 3 posters) at international and national conferences, including:

- Ocean Sciences Meeting (2026, Talk)
- ICES Annual Science Conference (2024, Poster)
- Baltic Sea Science Congress (2023, Talk)

Commissions of trust

Chair of the PhD council	2023
Vice-chair of the PhD council	2022
Technical assistance with PhD hybrid defenses	2022 — 2023

Academic services

Session co-chair, Ocean Sciences Meeting (2026)

Session: *Environmental DNA and 'Omics Approaches to Unraveling Marine Biodiversity, Species Interactions, and Ecosystem Change*

Ad-hoc reviews

Deep Sea Research Part II: Topical Studies in Oceanography, Limnology and Oceanography Letters, Marine Ecology Progress Series, Molecular Ecology
